Summary & Implications

Summary & Implications

- **GOODY** is the backbone - active in all 4 retailers and 11 categories, with **TUNA** and **PASTA DRY** as the top two categories across every retailer.
- **TREVA** has a meaningful but narrower footprint - only TUNA and PASTA DRY, only PANDA and OTHAIM - yet drives substantial value in TUNA at both retailers.
- **LIBBY'S** and **COFIQUE** are single-category, single-retailer plays suggesting early-stage or limited EPOS distribution.
- **TIM HORTONS** and **WELLO** show zero MAT sales in EPOS despite being Basamh brands - this signals either no EPOS distribution, very recent launches, or data gaps worth investigating offline.
- 3 retailers (TAMIMI, BIN DAWOOD, DANUBE) had no EPOS data loaded and were excluded from the analysis.

Basamh's EPOS MAT footprint consists of **30 category–retailer–brand combinations**, spanning **4 brands, 13 categories, and 4 retailers**. GOODY carries the portfolio across all retailers, TREVA provides a secondary anchor in TUNA and PASTA DRY, while TIM HORTONS and WELLO are absent — presenting either a distribution gap to close or a category–channel mismatch to explore.

What I Can Do Next

- "Why is TREVA only in 2 retailers?" - diagnose TREVA's limited EPOS coverage and see if distribution or assortment is the blocker.
- "Show TIM HORTONS and WELLO in RA instead" - check if those brands have Retail Audit presence where EPOS shows none.
- "Which GOODY category is growing fastest vs last year?" - rank GOODY's 11 categories by MAT growth to spot momentum shifts.

Summary & Implications

- The core trio - **GOODY, TREVA, LIBBY'S** - has been stable across all 4 retailers for the full 21-month window. This is a solid, uninterrupted retail footprint.
- **WELLO** is a recent launch, appearing only in May 2026 across 3 retailers (CARREFOUR, LULU, PANDA) but not yet in OTHAIM - suggesting a phased rollout worth tracking.
- **TIM HORTONS** expanded into OTHAIM between Sep 2024 and May 2026, completing its coverage across all 4 retailers.
- **COFIQUE at LULU** dropped to zero value sales in May 2026 (from 111,068 in Sep 2024) - this could be a delisting, out-of-stock, or data gap that needs investigation.
- The earliest available EPOS data for Basamh brands starts at **September 2024**, so first active month = Sep 2024 across all retailers.

All 4 active EPOS retailers have carried Basamh brands since data began in September 2024 through May 2026. While GOODY, TREVA, and LIBBY'S are rock-solid across the board, the portfolio is still shifting at the edges — WELLO entering, COFIQUE potentially exiting LULU, and TIM HORTONS completing its retail coverage. The 21-month continuous presence across 4 retailers confirms a well-established EPOS footprint for the Basamh portfolio.
